DIPLOMATIC CORPS.

At the Russian Legation Madame de Calais will receive on Thursday, from 3 until 5 p.m.

At the Argentine Legation Madame de Gardo will receive on alternate Monday evenings, commencing on Monday, January 5, and will be at home on Saturday, from 2 until 5 p.m.

THE IMPORTANCE of preserving cancelled coupons as vouchers has recently been singularly illustrated in the coupon division of the office. It will perhaps be remembered that some months since a number of coupons were received at the sub-treasury in Boston and New York from German bondholders, and when examined by the Treasurer's office were thrown out as counterfeit.

They were submitted to the experts and engravers, and after a careful examination were pronounced excellent counterfeits. It was evident they were printed abroad, for German engraving was clearly defined. This discovery created quite a stir in financial circles, and the Assistant Treasurer was furnished with enlarged photographs to enable them to guard against anything more. The counterfeiters were sent to the bankers abroad, and again returned with the assurance they were genuine; that coupons cut from the same bonds had heretofore been paid, and the owners were responsible people. Accordingly the records were searched, the lists of paper hunted up, and the coupons pronounced counterfeites were found to exactly fit the coupons already paid.

The evidence was convincing that the rejected coupons were genuine, and the tests applied by the parties before decided in their opinions, left them no reason to doubt their mistake. These coupons have accordingly been paid, as the genuineness of the coupons by which they were compared is established by the records of the office. No other coupons of this number have ever been presented for payment.

DOSS M. H. F. WHITINGHORN'S RESIGNATION of his position as Representative in Congress from the First District of South Carolina, or the proceedings of the House of Representatives on the charge preferred against him by the Military Committee of the House, except him from indictment "in any court of the United States having jurisdiction," or from the penalty "not to exceed \$10,000, and suffer imprisonment in the penitentiary not exceeding two years," adjudged against "any member of Congress," is not more certain than that the influence which Mr. Burlingame exerted upon our relations with China will survive his untimely death. We may regret very deeply that he was not spared to carry out his malignant designs for the furnishing of mutual intercourse, but at the same time we should remember that his most difficult task had been already accomplished. It was he who brought about a thorough perusal introduction between ourselves and the Celts. Whatever else follows, his labors will be assisted by mutual knowledge, and what is more certain.

A recent statement by the Governor General of one of the most important Chinese provinces was to the effect that America was one of the best friends of China. Every member of the embassy which passed across this continent, and was received with genuine hospitality everywhere, must hold the same opinion.

THE BILL for the removal of political disabilities, which contains one or two thousand names, was sent to the President on Saturday. It will be remembered that after the Senate had agreed to the House amendments and had passed the bill, Mr. Wilson entered a motion to reconsider. As the Senate was under consideration it was supposed that the objection to Revere's admission had something to do with the motion. But the bill was retained, because, after it passed, it was found that the House had added the name of Hon. Thomas L. Clingman, of North Carolina, who left his seat in the Senate in 1861 and accepted a commission under the Confederacy. But upon the recommendation of the present North Carolina delegation, who voted for Mr. Clingman, as accepting the situation in good faith, Mr. Wilson withdrew his motion to reconsider just before the adjournment on Friday.

THE SUNDAY HERALD.—Mr. J. N. Burrill, who recently purchased the Sunday Herald, announces in the issue of the paper yesterday that he has associated Mr. Arthur Shepherd with him in its editorial management and publication. Mr. Shepherd is well and favorably known to our citizens, and a journalistic experience of eight years in the city affords an assurance of success in his new undertaking. Messrs. Burrill & Shepherd will make the paper what it should be, real, live, interesting journal, and out that cannot fail to secure the confidence and patronage of the community.

THE PRESENT POPULATION of the United States has been variously "guessed" at from 40,000,000 to 45,000,000, and more accurate statistics of 50,000,000, and now 50,000,000 within a generation or two. A carefully prepared estimate published in the Tribune on Sunday gives 40,000,000 as the probable population on June 1, 1870, when the ninth census is to be taken. This is an increase of over 9,000,000, certainly very creditable under the circumstances of a decade of war and political dismemberment.
